**FREE on Saturdays.**

\*The Sustainable Landscapes tour is offered through the Visitor's Center on the 4<sup>th</sup> Wednesdays at 10am.  
For more info: 520-621-5130

## **Arboretum History (ABH)**

Learn the history and the heritage of Arizona's oldest University. Follow our guides as they show you beautiful places and tell you fascinating facts about the growth and development of the University, and how it came out of the sands of the Sonoran Desert to become the jewel of Arizona.

## **Sustainable Landscapes (SUSL)**

As the oldest continually maintained public green space in Arizona, the Campus Arboretum values tree selection and landscape management practices that will ensure we continue to thrive in the future. Join this special Visitor's Center tour to learn how we are implementing sustainable practices and to get inspired to create your own landscape in harmony with nature.

## **Trees Around the World (TAW)**

Although the UA strives to select only the best adapted plants, for more than a century the campus landscape has also served as testing grounds for trees from climates unlike our own, supplying the Campus Arboretum with a collection of unusual but delightful specimens. Trees around the World features some of these unique trees and describes their native uses and interesting folklore.

## **Edible Landscapes (EDL)**

The brain child of a hungry student, this tour identifies edible trees growing in our campus landscape, many of which are native to the Sonoran desert.

## **Mediterranean Tour (MET)**

Discover trees from the heart of civilization and learn the key to growing these plants in the Sonoran desert.

## **The Scavenger Hunt (SCH)**

This "tour" is designed to engage kids and create in them an awareness for the environment. This tour is offered by request with advance notice.

## **Tropical Trip (TRP)**

Don't have the time or the means to travel to a tropical destination? Visit campus to observe mature tropical trees. Enjoy the mesmerizing view of palm trees swaying in the wind while learning to distinguish the most common palms used in the southwest.

## **Medicinal Plants (MDP)**

Plants have been used for centuries to treat and remedy all sorts of ailments; on this tour, you will learn about some of the medicinal plants here on campus and their therapeutic properties for human health.
