

Internships

USDA National Institute of Food and Agriculture STEC CAP grant.

Internship positions consist of science-based research and education outreach projects with the USDA National Institute of Food and Agriculture STEC CAP grant. This is a great opportunity for students majoring in Animal Science, Agricultural Biology, Food Science and Technology, Public Health, Chemistry and Biology. Internships are available for 2014 spring, summer or fall semester.

This internship for Minority Serving Institutions (MSI) is part of a partnership program, led by the New Mexico Department of Agriculture in coordination with New Mexico State University Career Services.
