

Attention Pima Community College Students and Future Wildcats!

As you plan to transfer to the University of Arizona, there are several offices you may need to contact for answers to many questions. Unlike Pima Community College, the UA structure does not include a one-stop-shop in terms of obtaining financial aid information, academic advising, admissions information, veterans information, etc. However, there are two great resources that serve as starting points. Please reach out to either office at:

⇒ The Transfer Center
