

Arizona's Science, Engineering, & Math Scholars Program (ASEM Scholars)

Apply to the ASEM Scholars program to help ensure your success in a STEM major and career!

Year 1:

SCI 195B (1 unit spring semester): Freshman seminar course - ASEMS
Establishment of a mentoring team
Connecting with campus resources
Study skills & time management
Networking & setting career goals

Year 2:

SCI 295B (1 unit fall semester) - Sophomore seminar course - ASEMS Research Readiness
Identifying a research area of interest
Communicating with faculty about research opportunities
Introduction to undergraduate research thru extended research lab shadowing
Development of personal statements & undergraduate research applications

Years 3 & 4:

Faculty mentoring and advising
Undergraduate research participation
Internships and employment opportunities

Eligibility:

- Must be a UA freshman with a major in the College of Science (excluding psychology), College of Engineering, College of Agriculture and Life Sciences, or pre-health profession intent.
- Arizona Assurance (AZA) STEM scholars will be given priority, but others will also be considered

Questions & Applications: You must be accepted by the ASEM Scholars program to register for the seminar courses. Contact Stephanie Celaya-Serventi (scelayas@email.arizona.edu) if you have questions or need an application form. To apply send completed application forms to Stephanie Celaya-Serventi.
