

BLAISER

SUMMER EXPOSURE TO RESEARCH

The Border Latino & American Indian Summer Exposure to Research (BLAISER) is a cutting-edge program at the University of Arizona, Arizona Health Sciences Center (AHSC) designed to empower students to enter Medical School, Health Professions and Graduate School. This opportunity is for undergraduates majoring in the biomedical fields to learn about the bench-to-bedside research process and prepare for a translational career in biomedical research or academic medicine. **The 2015 Program will be held from June 7 to August 12, 2015.**

Program Highlights

- Mentorship from a UA biomedical researcher or medical scientist working on translational research
- Gain hands-on experience conducting research
- Learn about minority health disparities
- Enhance your GRE and MCAT skills
- Create and present a research poster
- Obtain additional clinical and community health mentoring the following academic year
- Experience a scientific community of students who have similar goals

Student Eligibility

- US Citizen OR US Permanent Resident
- Current Junior status or beyond
- Cumulative 3.25 GPA
- Latinos, Native Americans and African Americans; populations that are underrepresented in the biomedical and health sciences
- Currently majoring in: biology, chemistry, physiology, microbiology, engineering, computer sciences and similar fields

Offerings

- \$4,000 stipend
- On campus housing for non-UA students, paid by the program
- Six units upper division graded undergraduate research
