

RNR 200 Online

Conservation of Natural Environments

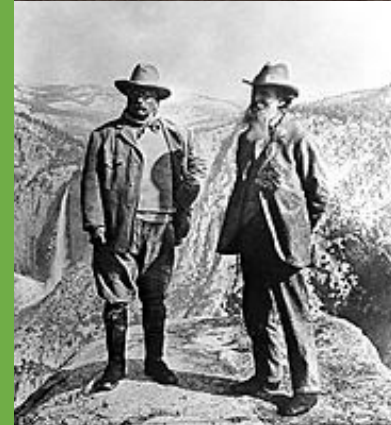

SUMMER SESSION 1: 5 June - 6 July

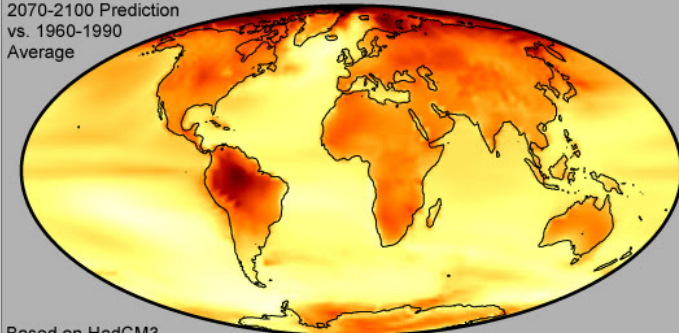

This **fully online** course will introduce students to:

- the evolving relationship between humans and nature from pre-colonial – present times
- the roles of science in conservation biology and natural resource management
- the history and mission of government and NGOs in conservation
- key events and leaders in conservation
- the major challenges for the future

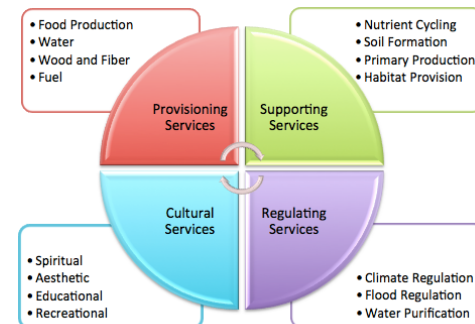

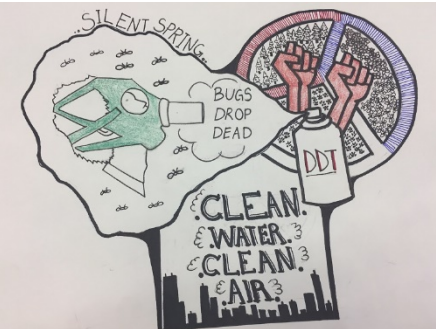

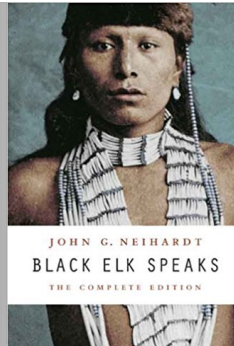

There are **no prerequisites**.

2070-2100 Prediction vs. 1960-1990 Average

Based on HadCM3
