

Which General Chemistry course is a best fit for me?

We now offer two versions of General Chemistry, beginning with CHEM 151 or CHEM 141 and CHEM 143. Both have pros and cons for students, and one is not better than the other.

Differences

CHEM 151 & CHEM 152	CHEM 141/143 & CHEM 142/144
<ul style="list-style-type: none">-Lecture and lab integrated into one section-Offered every fall, spring, and summer-Chemical thinking approach-ACS conceptual exam-Lab work done in groups-Question-driven curriculum	<ul style="list-style-type: none">-Lecture and lab offered as separate sections-Semester-specific offerings-Traditional approach to curriculum-ACS standard exam-Lab work done individually-Math is utilized more frequently

Similarities

Both courses...

- ✓ Satisfy the same pre-health pre-requisite
- ✓ Satisfy the pre-requisite and prepare students for General Chemistry
- ✓ Teach the same topics
- ✓ Utilize the same level and rigor of mathematics in class
