

Get Machine name of Windows 10 computer

1. Use the Start Button

Right click the Start button. This will open a list of choices. Click **System**, which will open a Settings window. Look next to **Device name** to find out the answer.

2. Use Command Prompt

```
C:\WINDOWS\system32\cmd.exe
Microsoft Windows [Version 10.0.18362.657]
(c) 2019 Microsoft Corporation. All rights reserved.

C:\Users\Joe>hostname
LAPTOP-JOE

C:\Users\Joe>
```

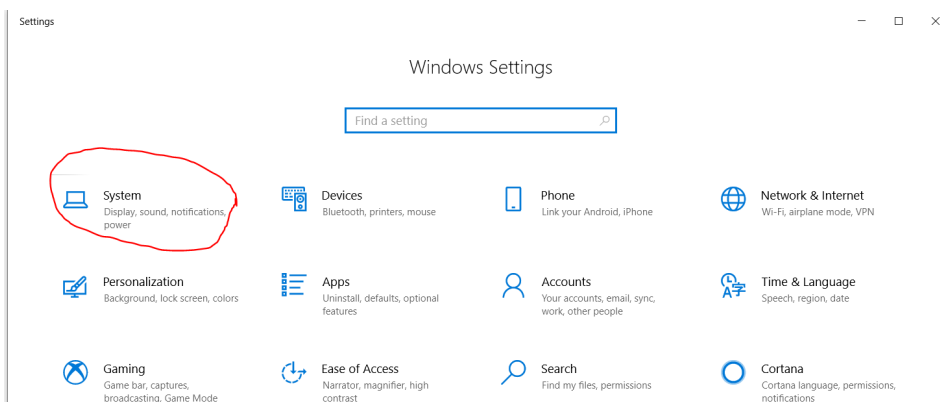

Press **Windows key + R** to open Run. Input **cmd** and click **OK** (or press **Enter**.) This will open the Command Prompt. Type **hostname** and press **Enter**. This will output your computer name on the next line.

3. Use Settings

Press **Windows key + I** to open Settings or Click on the start button then the gear icon.

Click **System**

Choose **About** and look next to **Device name**.
