 fully online  
 Campus:  
 Main, Arizona Online

**Why take this course?**  
 You will acquire a theoretical foundation in the fundamental concepts of microeconomics, making sense of economic data. You will be able to understand and analyze economic data (e.g., numbers, figures, graphs). This is a prerequisite for any job in business or economics. Become a competitive graduate student and be able to participate in policy debates, read the Wall Street Journal, and pass your assessments. Questions?
