

Principles of Ecotourism

RNR 240

**ENROLL
NOW!**

RNR 240, Principles of Ecotourism, is a 15-week, 3-credit online course. Students will learn strategies to conserve and manage natural and human resources in a sustainable and financially viable way.

Ecotourism is a rapidly growing field to address sustainability and conservation. It is one of few service sector industries that can also stimulate economic development in rural and outlying regions of the world.
