

SPRING

Rural Health

Community: Safford

Explore environmental health and health promotion through this immersion in Eastern Arizona rural mining and agriculture communities and partner organizations.

SERVICE LEARNING is a teaching and learning strategy that integrates meaningful community service with instruction and reflection to enrich the learning experience, teach civic responsibility, and strengthen communities.

RHPP Service-Learning courses offer unique learning opportunities that feature:

- hands-on, experiential learning
- immersive community engagement
- collaboration and networking
- small cohorts of no more than 15 students
- faculty and students from diverse disciplines
