

UNIVERSITY OF ARIZONA

2025 MEAT JUDGING

WHAT IS IT?

Meat Judging is a skill-developing, fun, and exciting competitive event that is hosted by the American Meat Science Association. Meat Judging is a 3 semester activity (F24, S25, F25) where students can expand their knowledge of the meat industry and learn technical skills by traveling across the US to multiple facilities while competing against different universities. Students also have opportunities to make connections through networking for future career endeavors. In addition, meat judging creates memories and friends that extend way past your years in college.

HOW TO BE INVOLVED?

Enroll in ACBS 210
for Fall 2024 Semester
