

AAEA Extension Section and C-FARE Webinar Announcement:

“Regional Perspectives on Economic Forces Shaping Land Asset Values”

Date: Tuesday, December 13, 2011

Time: 12:00 Eastern/11:00 Central/10:00 Mountain/9:00 Pacific

While much of U.S. commercial and home real estate values have been slow to recover from the recession, Farmland values have shown increased volatility depending on land asset use and regional location. This webinar will discuss economic forces affecting land values from different regional perspectives. The webinar presenters are:

Economic Forces Shaping Land Asset Values **Dr. Michael Duffy** (Iowa State University)
Land Values: A Midwest Perspective - **Dr. Michael Duffy** (Iowa State University)
Land Values: A Southern Perspective - **Dr. Damona Doye** (Oklahoma State University)
Land Values: A Western Perspective - **Mr. Roger Cramer** (Northwest Farm Credit Services)

The AAEA and C-FARE are presenting this webinar using technology located at Montana State University and hosted through Ag In Uncertain Times. For questions contact Tamara Wagester, tamarawagester@cfare.org or (202) 408-8522. To join the seminar, click on the following link or copy and paste this web address into your browser,
