

COLLEGE OF AGRICULTURE
AND LIFE SCIENCES

Annual Intensive Greenhouse Crop Production Courses

January 2-9, 2013

COURSE EMPHASES:

Greenhouse Hydroponic Production of Tomato and Lettuce

INSTRUCTORS:

Dr. Pat Rorabaugh -- *Tomato & Hydroponic Specialist*
Mr. Myles Lewis -- *Award-Winning Production Business Specialist*
Dr. Merle Jensen -- *Special Guest Lecturer & CEA Consultant*

With concentrated class agenda,
focused-discussion & hands-on sessions
in specialized hydroponic systems and greenhouse facilities,
students experience successful crop production practices.
Round-table question-and-answer session & discussions
with practicing greenhouse engineers, center on design and operations.
Marketing lessons are reviewed at one of the region's best farmer's markets.

**“...More reputable and a better value than many
training courses offered by private companies.”**

--Professional grower and attendee, 2012
