Jan Greenwood, based in the Washington DC area, was one of the earliest executive recruiters focused on education and nonprofit organizations. A pioneer in US higher education, she was the first woman president of a public four-year and graduate institution in Virginia and the first to hold multiple presidencies for both public and private institutions.

Betty Asher, based at our corporate headquarters in Destin Florida, has been a leader in executive search, consulting and training for the past two decades. One of the first women to serve as president of a flagship institution, she brings a unique background of knowledge to executive search, consulting and training services at all levels of higher education.
