

As we move forward with the Research Support reorganization we would like to address a few operational issues:

1. As of October 13, 2014 all pre-award activity will be carried out at the Unit level.
Faculty and staff should contact their unit business managers (listed below) for all pre-award services. grants@cals.arizona.edu should be used **only** for IDC waiver requests for College approval before the grant is routed
2. It is recommended that all PIs contact their pre-award team **as soon as** they decide to apply to a funding opportunity.
3. The pre-award team will start working with the PI to put all the documentation together at least **10 business days before** the Grant submission deadline. Grants must be **complete (submission ready with no further changes)** and submitted to the UA Sponsored Projects Services **3 business days** before grant submission deadline. UA SPS cannot guarantee that grants submitted after the 3 day deadline will be submitted to the sponsor by the due date.
