

RESEARCH, DISCOVERY & INNOVATION

Institute for Energy Solutions

Strategic Planning

Focus Groups

December 11-16, 2017

ENR2 building, N595

The **Institute for Energy Solutions** established in 2016 to work together across colleges and disciplines to address energy related research and development. IES invites you to be a part of its **future** through idea sharing, discussion, and setting goals that will help IES tackle emerging energy challenges and support UA as a world premier research university.

We are welcoming both junior and senior faculty to contribute their experience and ideas to any of the 2-hour Strategic Planning Focus Groups of interest. To participate, please [register](#).
