Phillip D. Nelson DVM, Ph.D.

Executive Summary

I have enjoyed an active career in teaching, research, and all other aspects of academic veterinary medicine. I have had the unique experience of being a faculty member during the development phase of two different colleges of veterinary medicine. The first as an Assistant Professor at Mississippi State University, and the second as an Associate Dean/Professor at Western University of Health Sciences. As I worked my way through the academic ranks, I experienced and am familiar with the full breadth of the academic roles and responsibilities that are associated with each role. I have successfully served as an educator, an academic clinician, a hospital administrator, a researcher, mentor, and filled various administrative roles,

I joined Mississippi State University (MSU) immediately after graduation as an intern/resident in small animal internal medicine when their first class was starting their second year. I did not know it then, but my experiences in developing the curriculum, navigating the body politic of the state, university, and college, provided fundamental pillars in my approach to education and student assessment. In 1985 I joined the vet med faculty at Tuskegee University as Associate Professor. I then entered graduate school at N.C. State in 1989. My research focused on feline leukemia and feline immunodeficiency virus infections in cats as biological models for human HIV, and the development of immunity in the dog and cat. After receiving my PhD in 1993, I returned to Tuskegee and I served as Department Head and Hospital Director. Shortly thereafter, I returned to MSU as Associate Dean. As Associate Dean, I continued my research as described below. In 2005, I was selected to be the Executive Associate Dean for Preclinical Programs of the College of Veterinary Medicine at Western University of Health Sciences – another new college about to begin the second year of its first graduating class. In 2007 I became Dean of the College of Veterinary Medicine.

Regarding the area of professional service, I fully appreciate the importance of advocacy and have demonstrated my commitment as an effective advocate for the profession, higher education, diversity, and open access to quality education. I have been an active member of the American Veterinary Medical Association (AVMA), the American Association of Veterinary Medical Colleges (AAVMC) and state professional veterinary organizations including MS (MVMA), AL (ALVMA), and California (CVMA). I have served on several committees in each organization: I am a past member and chair of the Educational Commission for Foreign Veterinary Graduates of the AVMA; past member and chair of the diversity, advocacy, and finance committees of the AAVMC; and presently serve as immediate past President, member of the Board of Directors and chair of the governance committee of the AAVMC.

My awards, grant funding, publications and presentations are detailed in the CV below. Thank you in advance for your consideration. References are available on request.

Summary of

Phillip D. Nelson, DVM, PhD
Page 2

qualifications

Present Position: Dean and Professor of Immunology, College of Veterinary Medicine, Western University of Health Sciences: June 11, 2007

As the second Dean of a recently established College of Veterinary Medicine I am responsible for administrative oversight of all major operations of the college and serve as part of the university leadership team. Working closely with the Faculty and Staff of the college, it is my responsibility to establish a viable vision for the college, develop the philosophical foundation for curricular instruction and design, and implement appropriate procedures and protocols that support the mission of the college.

The following is a selected list of the accomplishments during my tenure as Dean of the College;

- Provided pedagogical and administrative leadership in establishing an discipline integrated curriculum that is founded on the principles of problem based learning.
- Provided leadership in the design and implementation of a distributive model in clinical training – the first of its kind in veterinary education.
- Under my leadership, the college was fully accredited in March of 2010 by the AVMA Council of Education.
- I have overseen significant growth in college programs as indicated by growth in faculty numbers from 33 to 64; growth in staff numbers from 12 to more than 40; and growth in operating budget from \$11 to \$17 million.
- I have received national and international recognition for the leadership provided to the College of Veterinary Medicine at Western University of Health Sciences.
- I am actively engaged in organized veterinary medicine at the local, state, and national levels.
- I am actively involved in advocacy activities for the profession and veterinary education in particular at state and federal levels.

I previously served as Executive Associate Dean for the Preclinical Programs in the College of Veterinary Medicine at Western University of Health Sciences. I reported directly to the Dean of the College of Veterinary Medicine and was responsible for oversight of the preclinical curriculum (first two years), with major responsibilities in development and implementation of the discipline integrated, Problem-Based learning curriculum. I was also responsible for the supervision of all on-campus faculty (approximately 45 in number), served as college liaison with support personnel, and managed instructional resources. I collaborated with the Associate Dean for Clinical Programs in overseeing the DVM curriculum.

Health Sciences

Executive Associate Dean for Preclinical Programs

February, 2005 – June, 2007; College of Veterinary Medicine, Western University of Health Sciences

Responsibilities included:

- leadership for the planning and implementation of the preclinical (first two years) curriculum.
 - o Introduced the use of the external qualifying examination for foreign graduates to evaluate pre-clinical curriculum and student progress(2005)
 - o Development and delivery of two faculty retreats per year. (2005 – present)
- Supervised and evaluated faculty in the preclinical curriculum.
- Oversight of development of physical facilities and teaching resources for the preclinical curriculum.
 - o Faculty office space assignment
 - o Assist the Dean with administrative oversight of planning for Mar's building.
- Served in acting capacity as the Dean in the Dean's absence.
- Participated in the Problem-Based learning (PBL) curriculum and case development as a content resource.
- Collaborated with the Associate Dean for Clinical Programs, to oversee the entire DVM curriculum.
- With the Assistant Dean for Faculty Affairs, participated in ongoing faculty development planning and assessment.
 - o Developed and implemented 360° faculty review (2005)
 - o Co-developed and implemented FTE data base for faculty in a discipline integrated curriculum (2006)
- Participated (part-time) as a facilitator in the PBL curriculum..
- Served as the main liaison with the Department of Animal and Veterinary Science at California State Polytechnic University, Pomona..
- Developed and implemented programs consistent with founding commitments to innovative student learning, reverence for life, and strategic partnerships and alliances.
- Served as an ex officio member of the Admissions & Scholastic Standing Committee, the Student Affairs Committee, the Curriculum Committee, and the Instructional Resources Committee.
- Participated in accreditation (AVMA-COE, USDE) activities as part of the leadership team.
- Represented the dean at local, state, national and international events.
- CVM policies and procedures
- Other duties as assigned.

**Professional
experience
(cont.)**

Associate Dean / Professor, Public Affairs

July, 2004 – January, 2005; College of Veterinary Medicine, Mississippi State University; Mississippi State, Mississippi

Phillip D. Nelson, DVM, PhD
Page 7

In July, 2004 the administration of the college was reorganized subsequent to growth in nearly every aspect of the college. I then assumed the title of Associate Dean for Public Affairs with the following responsibilities:

- Student Recruitment
- Admissions
- Legal Matters
- Development – including annual giving, scholarship support, and student support
- Policies and Procedures
- Extension
- Continuing Education
- College Publicity – Outreach
- Computer Services / Informatics
- Human Resources
- Facilities Administration / Renovation Projects / New Projects
- College Reports

Associate Dean / Professor, Academic and Public Affairs

July, 2001 – 2004; College of Veterinary Medicine, Mississippi State University; Mississippi State, Mississippi

In July, 2001 the college was reorganized and I assumed the duties of Associate Dean for Academic and Public Affairs. Consequently, my expectations in the area of research were reduced to 10%. Specific duties included:

- I assumed direct responsibility for support of curricular delivery, college admissions, student affairs, recruitment, college policy review and updates, and college public relations. I facilitated and guided significant curricular revisions resulting in a reduction in the professional curriculum by a semester, and a pedagogical change in content delivery.
- Under my leadership, the college revamped its admissions process which expanded consideration of applicants to include evidence of core values and aptitudes. I have also co-facilitated the incorporation of Baldrige criteria for quality management in the management processes of the college which has been recognized by the Mississippi Quality Awards Program.

Associate Dean / Professor

July, 2000 - July 2001; College of Veterinary Medicine, Mississippi State University; Mississippi State, Mississippi

- No change in duties as Associate Dean

Interim Dean / Associate Professor

April, 1999 - July, 1999; College of Veterinary Medicine, Mississippi State University; Mississippi State, Mississippi

In 1999, I was appointed Interim Dean when Dean Mercer resigned. Prior to Dean

**Professional
experience
(cont.)**

Phillip D. Nelson, DVM, PhD
Page 8

Mercer's retirement, I coordinated the activities resulting in the development of the Dean's job description, publication of the position announcement, and assisted in the formation of the search committee. The college was able to successfully recruit the next Dean within two months after Dr. Mercer's retirement. I served as Interim Dean until the new Dean was selected and arrived in July of that same year.

Associate Dean / Associate Professor

July, 1994 - April 1999; July 1999-July 2000; College of Veterinary Medicine, Mississippi State University; Mississippi State, Mississippi

Responsibilities included:

50% commitment to administrative duties, which included:

- Provided administrative and management support to the dean, as required. Activities included preparation of legislative budget reports, attending budget hearings, developing and implementing plans for facility and land use, working with university counsel on various litigation issues, and assessment of the potential impact of Y2K problem on college mission. I proposed the use of a tax participation basis as a means to determine the assessment of a Professional Education Fee (PEF). The adoption of this method provided the college the means to meet its legislative mandate to recoup expenditures on non-vested (at-large) students.
- Facilities Administration
- Working with the Dean, lobbied the legislature to approve placing the State Veterinary Diagnostic Laboratory under the authority of the College of Veterinary medicine, acquiring funding (\$18 million) for a new facility, and providing oversight for architectural designs, building and equipping the facility.
- Working with university counsel on various litigation issues, and assessment of various issues that posed potential challenges or threats to the college mission.
- Assisted the Dean in maintaining uniform standards for promotion and tenure within the college; Coordinating the college's processing of dossiers and presentation of dossiers to dean.
- Administrative oversight of the Academic Program, Animal Health Center, Diagnostic and Food Animal Medicine, and Research program Directors.
- Administrative oversight of faculty in the Office of Special Programs. Activities included FTE negotiations for Faculty assigned to the Office of Special Programs, faculty evaluation and faculty development.
- Administrative oversight of the duties of the Administrative Officer of the College including budget preparations, and staff hiring / termination. Activities included: planning, implementing, and sometimes chairing budget workshops, consultations with Administrative Officer on issues concerning personnel management, facility management, staff development, and policy enforcement.
- Prepared accreditation reports and other college reports / publications. Activities included: Coordination of site preparation activities for the site visit by COE.; Editor of college self study document for COE visit; Preparation of annual accreditation reports; Oversight of CVM publication "A Mission of

Professional
experience
(cont.)

Phillip D. Nelson, DVM, PhD
Page 9

Service"; College Strategic Plan update.

- Editor of College Strategic Plan; April, 2000
- Student Counseling
- In the absence of the dean, assumed responsibility for the management of the college.
- College representative on various university issues, and at various university functions
- College representative to state and national organizations and meetings
- Spearheaded activities to recruit minority students to MSU-CVM resulting in a moderate increase in minority student participation in the professional program and more viable relations with state HBCUs.

50% commitment to Academic and Research Programs

- Established active research laboratory with funded research in mucosal immunology and cytokine profiles in the neonate. Collaborative research awards for multi-year projects totaled \$266,184 in 1995, \$122,035 in 1996, \$35,779 in 1998 and \$80,000 in 1999.
- I was the principal advisor of two graduate students seeking their Master's degree. Both have successfully defended their dissertations. I have also been a committee member for six other graduate students seeking either the master's or Ph.D. degrees.
- Instructional activities have included: Serving as a facilitator in the PBL curriculum for at least one eight week block each year from 1995-99; Wrote, and graded immunology section of examinations when requested (1995-98); Delivered lectures on diagnostic immunology (1995-97); Delivered EKG laboratories and lectures for senior cardiology elective (1997-1998), year-one students (1998), and veterinary technical students (1997-99); coordinated cardiology elective (1997); member oral exam team (1998-2002); provide lectures for Advanced Immunology Seminar, CVM 8303 (1997-2004).
- I have provided mentoring and research exposure for 5 high school students from Starkville High School and the Mississippi School of Mathematics and Science.

Acting Head / Associate Professor Department of Small Animal Medicine, Surgery, and Radiology Oct., 1993 - July, 1994 Tuskegee University School of Veterinary Medicine; Tuskegee Institute, AL

Responsibilities included:

- Organization and implementation of an effective system of governance that allowed maximum participation by department members
- Long and short-range planning for program development
- Coordination of faculty activities in implementing the department's instructional program
- Supervision of departmental budgetary planning and fiscal obligations
- Course Responsibilities included: Consultant, VET-STEP Institute (1994); Lecturer/Faculty Member for Summer Enrichment Program (1994); Clinical Instruction (Small Animal Internal Medicine) (1993-1994); Clinical Cardiology Elective (1994); Lecturer for Medicine 312 (Endocrine Diseases) 1994; Small Animal Medicine course #315 (Cardiology unit; FeLV/FIV) 1993 – 1994; Clinical Diagnosis course

Page 10

#361(1993);Clinical Endocrinology (1994); Evaluator of Comprehensive Basic Science Examinations (1993)

Assistant Professor; Feb, 1984 – May, 1989; Tuskegee University School of Veterinary Medicine; Tuskegee Institute, AL

- Lecturer for Summer Enrichment Program
- Clinical Instruction (Small Animal Internal Medicine); 1984 -1989; 2nd, 3rd, and 4th year students
- Clinical Cardiology Elective 1985-89
- Coordinator for small animal medicine course #315
- Coordinator for Clinical Diagnosis course #361
- Intern supervisor
- Instructor in following courses or clinic rotations: small animal medicine, genital diseases, obstetrics, special problems in internal medicine, emergency medicine, and clinical rotations 126, 227, 288, 361, 362, 461, and 462. Incorporated Problem Knowledge Couplers and Provides into clinical instruction. Developed several PKCs for clinical use. Major contributor to design of computerized medical records.
- AVMA Criterion Referenced Task Force 1989

Instructor, Companion Animal Services; July, 1979 – Jan, 1984; College of Veterinary Medicine, Mississippi State University; Mississippi State, Mississippi

- Small Animal Clinician
- Associate Coordinator Companion Animal Service
- Lectured in several clinical courses including Clinical Practice Modules I & II, Fundamentals, Hemic-Lymphatic and Urinary System Courses. Course coordinator for Clinical Processes I & II, and clinical-pathological conferences. Contributed to design, development and administration of the first ECFVG examination.

Grants

Submitted

Deep Dermal Proteomic Patterns for Detection of Equine Hyperelastosis Cutis, Swiderski C, Burgess S, Rashmir A, Johnson J, Brashier M, Jack SW, May M and **Nelson PD**; October, 2004; Multiple agencies; \$20,000

Early Childhood Literacy Enrichment Training of Teacher and of Three and Four Year Olds in a Preschool Setting, Johnnie Earl Rasberry, July, 2004

Dietary Oligofructose and Inulin Modulate Immune Functions in Mice, Kindra Ann Kelly-Quaglianna, August, 2000

Failure to Detect Bovine Immunodeficiency Virus (BIV) Contamination of Stud Bull Blood or Semen Leukocytes in Samples Supplied by Artificial Insemination Centers, Rebecca Anne Burger, August, 2000

Dissertations / Thesis of Graduate Students:

Transplacental Transmission of Bovine Immunodeficiency Virus in Mississippi Dairy Cattle, Cary Allen Moody, August, 1999

Immunohistochemical detection of CD4+ and CD8+ T Cells by specific monoclonal antibodies During Postnatal Development of canine Small Intestine, Xian Lu, January, 1998

Additional professional activities

College Committees:

- College Cabinet (MSU-CVM; WU-CVM)
- Computer Advisory Group – Ad Hoc Chair (MSU-CVM)
- Dean's Advisory Council (MSU-CVM; WU-CVM)
- College Admissions Committee – Chair (MSU-CVM)
- Faculty Awards Committee – Chair (MSU-CVM)
- Land Use Committee (MSU-CVM)
- Professional Education Fee Committee - Administrative Chair (MSU-CVM)
- Program Director Group – Chair (MSU-CVM)
- Staff Awards Committee (MSU-CVM)
- CVM Picnic Committee – Chair 1996-97
- Member 1994-95, '98 (MSU-CVM)
- Faculty Awards Committee (MSU-CVM)
- Admissions Interviewer (MSU-CVM)
- CVM Orientation – 1995-2005 (MSU-CVM; WU-CVM)
- Campus Relations Committee – 1997 (MSU-CVM)

Phillip D. Nelson, DVM, PhD

Graduate Student Committees (MSU-CVM)

Xian Lu, MS, Major Professor, 1995 - 1998
Kendra Kelly Quaglianna, MS, Major Professor, 1997-2000
Terry Greenway, Ph.D., Major Professor, 1995- unfinished
Cary Moody, MS, Committee member, 1997-2000
Rebecca Ann Burger, MS, Committee member, 1995-1999
Johnny Raspberry, Ph.D., Committee member 1999 -2004
Carrie Weaver, Ph.D., Committee member, 1999 - 2004
Pamela Martin DVM, MS, Committee member, 2004 - 2005

**Additional
professional
activities (cont.)**

Division Committees:

Agricultural Summit II: Task Force on the Global Economy 1998
-99
Division Council (in absence of the Dean) 1994 - 2005
Meat Goat Committee 1995 – 1998

University Committees:

Academic Dean's Council (in absence of the Dean) 1994 - 2005
Administrative Council (in absence of the Dean) 1994 - 2005
Associate Dean's Council 1994 - 2004
Council on Minority Affairs - Member 1994-96; President 1996-
1998
Development Council (in absence of the Dean) 1994 - 2005
Faculty and Staff Housing Appeals 1996-1999
Institutional Animal Care and Use Committee 1997- 2000
Replacement Scholarship Task Force 1998-2005
Judicial Appeals Board 1999-2005
WASC Committee on Accreditation (Member) – Western
University 2006
WASC Panel on Outcomes Assessment (Chair) – Western
University 2006-2007
Academic Dean's Council 2007 to present

State Committees / Boas
State/National Committees & Boards

- IHL Committee on Tuition and Fees 1998
- Veterinary Diagnostic Laboratory Board (Acting Chair in absence of the Dean) 1997-1999
- MVMA Program Committee member - 1999 – 2005
- MVMA Liaison Committee – 1995-2005
- Member Organizing Committee: International Feline Retrovirology Symposium, 1993
- AAVMC Multicultural Affairs Committee: Chair 2000-2003
- Reviewer, Veterinary Immunology and Immunopathology; 1993 to 2003

Phillip D. Nelson, DVM, PhD
Page 21

- NBVME Qualifying Examination item writer; 2005-2007
- AAVMC Long Range Planning Committee: Member 2006-2007
- AAVMC representative to AVMA ECFVG committee: Member 2006-2012
- Dean's Advisory Committee, School of Veterinary Medicine, Nursing and Allied Health, Tuskegee; 2007 – Present
- AAVMC Finance Committee, 2010-13, Chair 2012-13
- AAVMC Advocacy Committee; member 2013-16, Chair 2015-16
- AAVMC President Elect; 2015-16
- AAVMC President; 2016-17
- AAVMC Past President 2017-18
- AAVMC Board of Directors: 2015 -18 pursuant to presidential duties

Editorial Boards

- Education for Evidence-Based Practice – Advisory Board 2005-2006

Consultant Activities

- COE Accreditation consideration; College of Veterinary Medicine, Chonbuk National University, Chonbuk South Korea; May 2016
- Discussions on the requirements of a Distributive Model of Clinical Training: Lincoln Memorial University, October 2010
- COE Accreditation preparation; College of Veterinary Medicine, Seoul National University, Seoul, South Korea; May 2007
- External Outcomes Assessment Committee; Member, Tuskegee University 2005
- Diversity Matters – AAVMC national diversity effort; Liaison 2005-06
- Dean's Advisory Board; School of Veterinary Medicine, Nursing, and Allied Health, Tuskegee University. 2007-present

Professional memberships

- Mississippi Veterinary Medical Association, 1994 – 2005
- Alabama Veterinary Medical Association, 1985-89, and 1993-94
- American Association of Veterinary Medical Colleges, 1994 – present
- American Veterinary Medical Association, 1979 – present
- Minorities in Agriculture, Natural Resources and Related Sciences, 2002 - present
- Alabama Veterinary Medical Association, 1984 – present
- Tuskegee Veterinary Alumni Association, 1979 –present
- American Animal Hospital Association, 1985 -1989

Community activities

College Open House provides opportunities for local Boy and Girl Scout troops to earn medical merit badges. To date, nearly 8 thousand merit

Phillip D. Nelson, DVM, PhD
Page 22

badges have been earned because of these opportunities.

Pomona Boys and Girls Club Supporter 2005-present

Starkville Rotary – Member, 2003 - 2005

United Way – Board Member, local chapter 2002-2005

100 Black Men of America
President
1998-2005
Secretary
1996-98
Charter Member- Columbus, Ms. Chapter
1995 - present
Chair - Scholarship Banquet Committee
Member - Mentoring Committee

Advisor: CVM Explorers; Boy Scouts of America
1996-98

Pro-MISS Rural Leadership Development ; 1994 - 96
Chair - Issues Forum Committee

President, Bugg Elementary PTA
1991 - 1992

Member National PTA
1986 - present

Kiwanis
1995 - 1997

- Awards received
- Recipient of AAVMC 2016 Senator John Melcher, DVM Leadership in Public Policy Award
 - John Payne Industry Award; Banfield The Pet Hospital, 2012
 - Distinguished Alumnus Award; Tuskegee Veterinary Medical Alumni Association, 2008
 - Who's Who Among America's Teachers, 2004; 8th edition;
 - Member, Board of Examiners, Mississippi Quality Awards Program, June, 2002
 - Board of Trustee's Educator for Black History Month February 17, 2000
 - Selected as nominee for special recognition by Institutions of Higher Learning by Mississippi State University Division of Agriculture, Forestry and Veterinary Medicine 1997, 1998
 - AAGS Research Award; North Carolina State University, 1991

Phillip D. Nelson, DVM, PhD
Page 23

Recipient – National Research Service Award, 1989.

Norden Distinguished Teacher Award; Tuskegee University, 1985

Pegasus Award for Distinguished Clinical Instruction; Mississippi State University, 1983
