

THE UNIVERSITY OF ARIZONA

## Cooperative Extension

Attention all growers, viticulturists, and vineyard owners! The University of Arizona Cooperative Extension is conducting a Statewide Viticulture Needs Assessment and requires your help. Your anonymous feedback is essential, as it will inform Cooperative Extension as to how it can best serve the Arizona wine grape industry. Topics include production, irrigation, fertility, pest, pathogen, and disease management, among others. To access the survey, use the link or QR code below.
