

AAAS S&T POLICY FELLOWSHIPS

ON-CAMPUS INFORMATION SESSION

Interested in launching an exciting career (or sabbatical?) in science policy in Washington, DC? AAAS S&T Policy Fellowships provide opportunities for scientist and engineers to contribute to federal policymaking, while learning firsthand about the intersection of science and policy. Serve as a science advisor for a Member of Congress; work on science policy at an executive branch agency, such as NIH, NSF, the DOD, the Department of State, or the EPA; or participate in the brand new Judicial Branch pilot program!

Learn more at our information session!

- [Wednesday, October 8th, 1:00pm](#) in the [Copper Room](#), Student Union Memorial Center, 4th Floor
- Hosted by UA's Office of Federal Relations and featuring former fellows

If you're interested in AAAS S&T Policy Fellowships, the UA Office of Federal Relations can:

- Provide you with information on fellowship opportunities, the application process, and deadlines.
- Connect you with former fellows.
- Assist with your application and interview prep.

To RSVP, or for more fellowship info, CONTACT:

Shannon Heuberger, Director for Federal Legislative Affairs, UA Office of Federal Relations:
520-621-9191, heubergs@email.arizona.edu
