

The Biological and Biomedical Joint Seminar Series
hosted by Departments of Molecular and Cellular Biology, Chemistry
and Biochemistry, and Cellular and Molecular Medicine

**“Intravital Imaging At Single Cell Resolution Reveals Molecular
Mechanisms Of Tumor Cell Dissemination And Markers For
Treatment Of Metastasis In Breast Cancer Patients”**

JOHN CONDEELIS, Ph.D.

**The Judith and Burton P. Resnick Chair in Translational Research
Department of Anatomy and Structural Biology
Albert Einstein School of Medicine**

**Wednesday, September 21, 2016
11:00 AM – Noon**

**Thomas W. Keating Bioresearch Building
Room 103 BIO5 Institute, 1657 E. Helen**

Dr. Pascale Charest, Faculty Host
