

The Biological and Biomedical Joint Seminar Series

(Hosted by the Departments of Molecular & Cellular Biology, Chemistry & Biochemistry,
and Cellular & Molecular Medicine)

“Cell Free Methods for Producing Protein Microarrays”

Joshua LaBaer, M.D., Ph.D.

Interim Executive Director, Biodesign Institute
Director, Virginia G. Piper Biodesign Center for
Personalized Diagnostics;
Virginia G. Piper Chair of Personalized Medicine;
Professor, School of Molecular Sciences;
Arizona State University
Adjunct Professor of Medicine –
College of Medicine, Mayo Clinic

Thursday, November 17th, 2016

Medical Research Building (MRB), Room 102

4:00 pm

CMM Speaker Host: Gus Mouneimne, PhD

Dr. Labaer's efforts focus on the discovery and validation of biomarkers — unique molecular fingerprints of disease—which can provide early warning for those at risk of major illnesses, including cancer and diabetes.
