

ECOSYSTEMS GENOMICS SEMINAR SERIES

Thomas W Keating Building | Room 103
1657 E Helen St, Tucson, AZ 85721

**Thursday,
September 5, 2019**

4:00PM - 5:00PM

David Baltrus

University of Arizona
School of Plant Sciences

How Biogeography Shapes Microbiome Structure

<https://arizona.zoom.us/j/500818735>

**Thursday,
September 12, 2019**

4:00PM - 5:00PM

Lingling Shi

University of Göttingen

Competition and complementarity of agroforestry components by carbon sequestration in soil: ^{13}C labeling and tracing.

<https://arizona.zoom.us/j/132123535>

**Thursday,
September 19, 2019**

4:00PM - 5:00PM

Student & Postdoc Presentations

Short presentations by the students and postdocs of the Ecosystem Genomics Initiative

<https://arizona.zoom.us/j/370970800>

**Thursday,
September 26, 2019**

4:00PM - 5:00PM

Jonathan Williams

Max Planck Institute for
Chemistry, Mainz

Atmospheric VOC observations from ATTO, the tall Amazon rainforest tower
