

BRIGHT LIGHT STUDY

DO YOU WANT A **PICTURE** OF YOUR **BRAIN**?

The SCAN Lab is conducting a study at the University of Arizona to understand the effect of bright light on brain responses.

Are you eligible?

- People ages 18 - 40
- English as the primary language
- Normal or corrected to normal vision
- No metal objects in your body
- No history or psychiatric or neurological disease

Eligible participants will receive up to \$200 and a picture of their brain for completion of all study activities (includes 2 separate visits to the University of Arizona College of Medicine)

An Institutional Review Board responsible for human subjects research at The University of Arizona reviewed this research project and found it to be acceptable, according to applicable state and federal regulations and University policies designed to protect the rights and welfare of participants in research.
