SOFTWARE/DATA CARPENTRY WORKSHOP

LEARN SCIENTIFIC
COMPUTING SKILLS

Saturday & Sunday
November 7 and 8, 2020

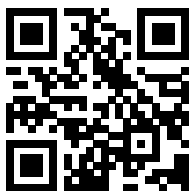

9:00am - 5:00pm

Virtual workshop

Limited space

RSVP REQUIRED

<https://bit.ly/3nwGH1t>

This is a free hands-on workshop for graduate students, postdocs, faculty and staff. Acquire the computational skills necessary to be productive in today's research environments.

SKILL LEVEL

The workshop targets novice users.

LEARN HOW TO

- Automate repetitive tasks (Unix shell.)
- Improve reproducibility of analyses (R/R-Studio).
- Track, manage and share data/analyses (GitHub).
