

The Biological and Biomedical Joint Seminar Series

(Hosted by the departments of Molecular & Cellular Biology, Chemistry & Biochemistry, Cellular & Molecular Medicine, and Plant Sciences)

“Nitric Oxide in Health and Disease”

Bill Montfort

Professor

Chemistry & Biochemistry
The University of Arizona

Tuesday December 8th, 2020
Zoom Meeting @ I IAM

Hosted By: Ross Buchan (MCB)

I will briefly introduce nitric oxide signaling mechanism in regulation of broad physiology, including vascular tone, wound healing, odor detection and long-term memory. Following this, I will focus on new studies involving structure of the nitric oxide receptor and the role of nitric oxide in promoting breast cancer.
