

2011 Summer Research Scholars Program Cornell University

Department of Plant Pathology and
Plant-Microbe Biology at Geneva

Cornell University's Department of Plant Pathology and Plant-Microbe Biology in Geneva, New York has developed a Summer Research Scholars Program where undergraduate students can participate in exciting research projects within the discipline of plant pathology and plant-microbe biology.

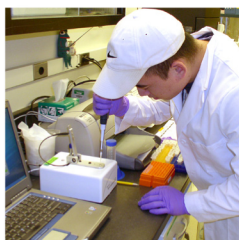

The student interns will have the opportunity to work with faculty, their graduate students and postdocs on research projects that can be laboratory or field-based.

2011 Summer Scholars Program
