

THE UNIVERSITY OF ARIZONA.

Arizona's First University.

TRIF Imaging Fellowship Program for Graduate Students

Program:

The University of Arizona supports a fellowship program for graduate students who are pursuing a doctoral degree focused on the science, technology, or applications of imaging. Graduate students in the physical sciences, mathematics, engineering, biological sciences, or social sciences are encouraged to apply. The TRIF Imaging Fellowship is available for the 2012/2013 academic year.

Support and Eligibility:

Students must be in a Ph.D. degree program at the University of Arizona and working under the direction of a member of the University of Arizona faculty. A central focus of the applicant's research work should be related to the development and/or novel utilization of imaging systems. Preference will be given to students who have passed their comprehensive written and oral exams and are actively involved in research work leading to their doctoral degree. Students accepted into the program will receive half of their RA support from the Imaging Fellowship during the 2012/2013 academic year (not including summer support). It is expected that the student's advisor will provide the other half of the student's RA support. Students can receive support from the TRIF Imaging Fellowship only one time during their graduate program. All students receiving support will be expected to participate in a monthly seminar series on imaging and to write a final report on research accomplishments during the fellowship period.

Application:

Students applying to this program should send: 1) a CV with current GPA and status (e.g. 3rd year student passed comprehensive exam), and 2) a 1-2 page write-up briefly describing their dissertation research project and their long-term career objectives. A letter from the sponsoring faculty member is also required and should state the advisor's assessment of the student's ability and commitment to supply the other half of the RA stipend during the 2012/2013 academic year. Interested students or faculty can contact Ms. Dyann Garcia (dgarcia@radiology.arizona.edu) to inquire about the fellowship program. The deadline for receipt of applications is **May 4, 2012.**

Applications should be sent (or faxed) to:
