

New Course for Fall 2018!

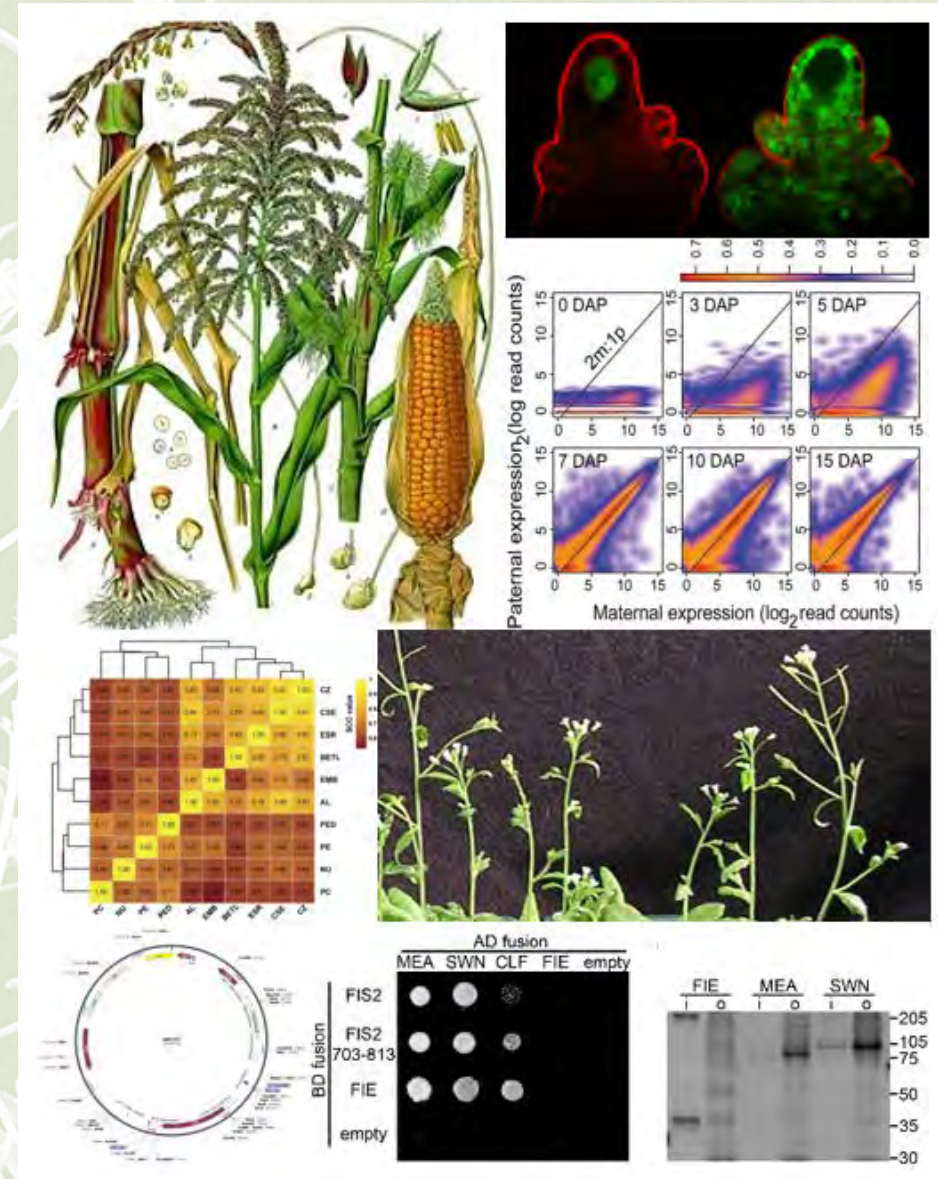

Plant Molecular Biology PLS 458/558

Instructor: Ramin Yadegari, Ph.D.

Lecture: TuTh 11am - 12:15pm

Discussion: TBD

This course provides a fundamental knowledge of the molecular-genetic and cellular biology of growth and development in plants and their response to biotic and abiotic stresses, with a primary focus on processes unique to plants. Experimental approaches will be emphasized.
