

## **Class Search**

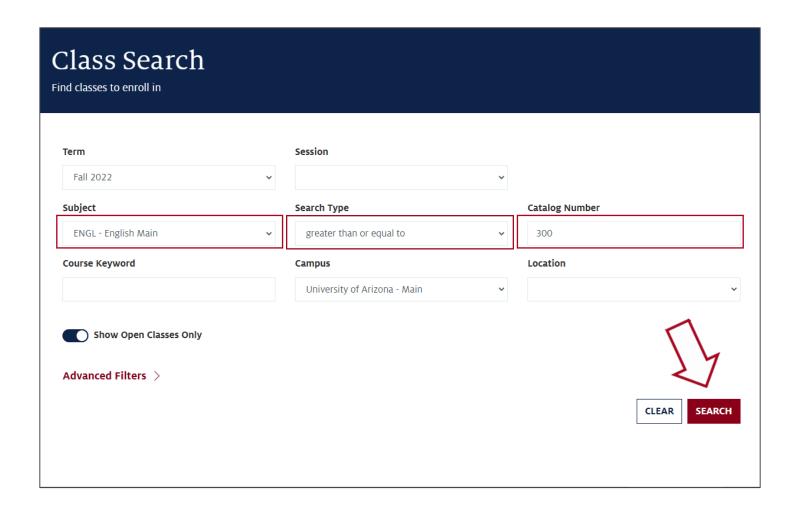

- Class Titles are shown first
- Expand to view class sections

Step 1 Class Search

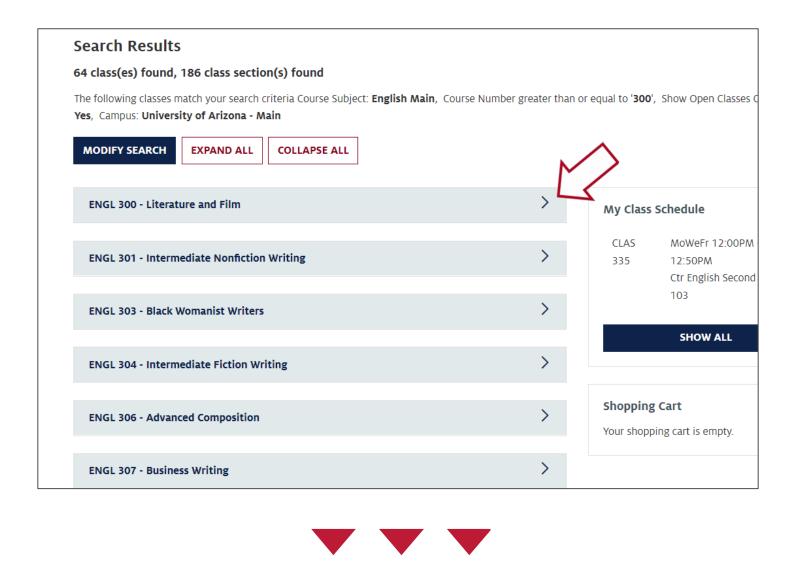

From the main page of Student Center, go to the **Enrollment** tab and select **Class Search**.

There has been an update to the Class Search results when your search criteria includes more than one class.

For example, select the Subject of **English** and a Catalog Number **greater than or equal to 300** and select **Search**.

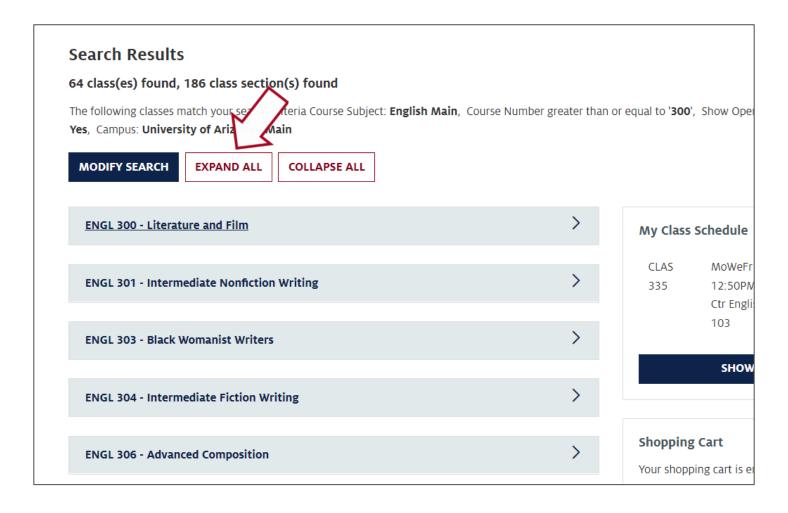

Step 3 Class Titles

You will first see all the **Class Titles** that match your search criteria.

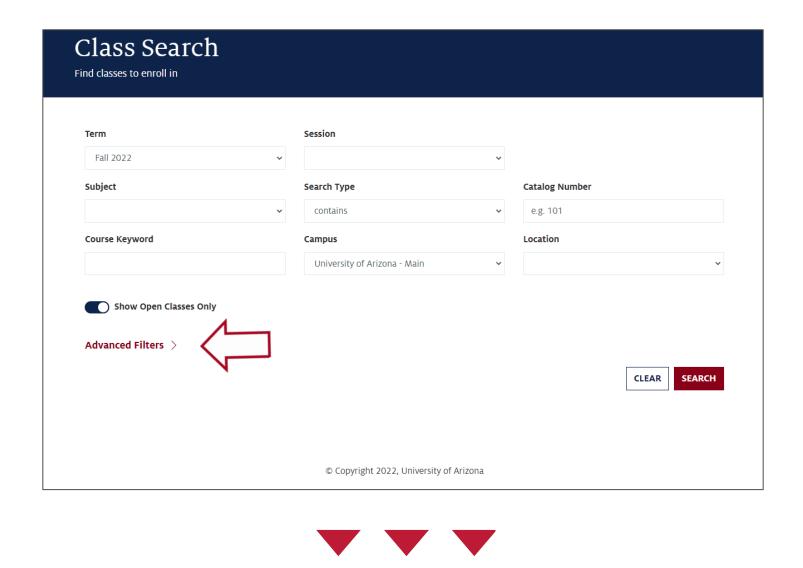

You can view the section data for a particular class by selecting the class title.

Step 4 Expand All

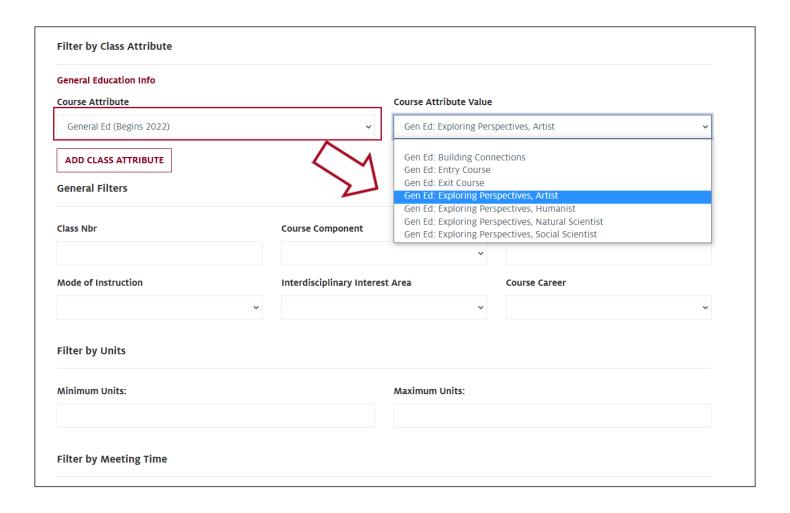

Use the **Expand All** button to expand all classes.

This may be especially useful when searching for General Education classes.

From the Class Search page, select the Advanced Filters option.

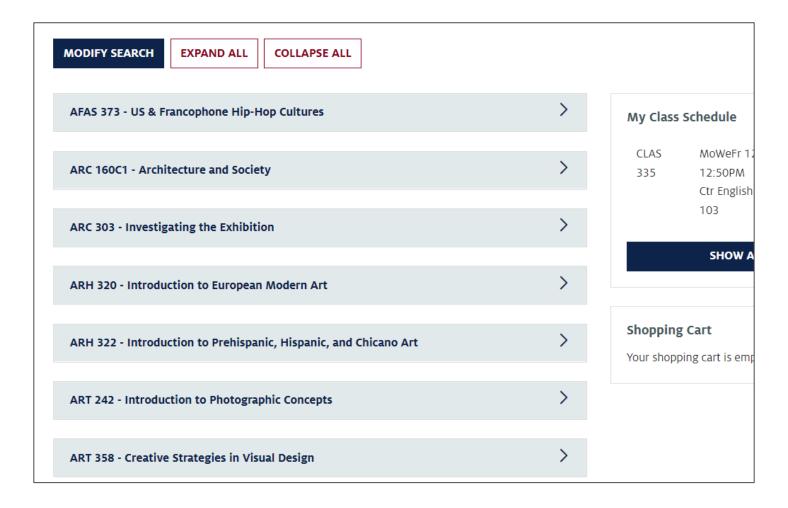

In the **Course Attribute** dropdown, select the General Ed option according to when you started coursework at University of Arizona.

For the **Course Attribute Value**, select one of the General Education categories and select **Search**.

Step 7 Search Results

Within the Search Results page, you will see all the **Class Titles** from a variety of subjects that meet the requirement.
