**Postharvest Physiology, Technology  
and Produce Safety**

Online

2011 Summer II (July 11-August 10)

This **online course** provides an overview of the various biological and physiological phenomena affecting postharvest life of agricultural commodities and various technologies to extend the shelf life. A half of this course is dedicated to microbial safety issues of vegetable production and handling.

**Instructors: Jorge Fonseca ([jfonseca@ag.arizona.edu](mailto:jfonseca@ag.arizona.edu))  
and Chieri Kubota ([ckubota@ag.arizona.edu](mailto:ckubota@ag.arizona.edu))**
