

Fall 2011 - PLS 195A
PLANT SCIENCES COLLOQUIUM
Tuesday 11:00-11:50am (1 credit)

Discover the science that will feed the world

How will we feed and clothe 9-billion people in 2050?

Plants beautify and preserve our environment
and are essential to the survival and health of the growing
population on planet earth.

Plants provide us with:

- foods
- animal feed
- medicines
- fibers for clothing, & textiles
- building materials
- fuels
- parks and green spaces
