

RNR 101-001: Sustainable Earth: Natural Resources and the Environment

This course is an approved **Tier 1 INDIV equivalent**. Ask the CALS advisors in Forbes 211 to assist you with making this substitution.

Life support systems on Earth are challenged by a growing global population.

RNR 101 will explore through lectures and discussion, the strategies individuals and societies might develop to become effective stewards of our natural resources and achieve a sustainable Earth.

Location: Modern Languages, Rm 311

Time: Mon/Wed/Fri 10:00AM - 10:50AM

School of Natural Resources
and the Environment
