

BIO5 Ambassadors

Looking for an opportunity to share your love of science?

Biosphere 2 Tour

Science City, Festival of Books DNA Activity

Applications Now Open!

BIO5 Ambassadors are a honorary organization affiliated with the BIO5 Institute. Members of this dynamic student club represent a variety of colleges and departments throughout UA, and work together on projects that promote collaboration and science literacy. Activities include outreach to K-12 students, field trips, assisting with tours to BIO5 labs, and, of course, networking, professional development, and socializing.

BIO5 Institute aims to harness the collaborative power of our five core disciplines - Agriculture, Engineering, Medicine, Pharmacy, and Science - to find bold solutions to complex, biology-based challenges affecting humanity.

Application review begins Friday, January 24, 2014

Questions? Contact Heather Ingram at hci@bio5.org or visit <http://www.bio5.org/outreach/bio5-ambassadors> for details and to access the application.
