

Microbiology Club

Special MEETING: Mar 12, 5 pm –
approx. 8:30 pm
Tucson Convention Center

The Microbiology Club has been invited to the awesomeness of microbiology at the Southern Arizona Research Science and Engineering Foundation this Wednesday beginning at 5 pm.

Those who plan to attend will meet at the west parking lot of the VSM building at 430 pm to drive over to the Tucson Convention Center together. If you are interested in participating in this outreach opportunity please RSVP to millerk@email.arizona.edu and notify us if you are willing to drive a few students with you (and how many you are comfortable transporting) or if you need a ride. We will do our best to pair folks with a ride for those that need it.
