

Plant Propagation Production & Management

PLS 330 (4 credits)

Drs. Tanya Quist and Ursula Schuch

Fall 2015

Lecture: T/Th 11:00am-12:15pm

Lab: T 1:00pm-4:00pm

This course integrates all aspects of plant wholesale production from propagation through operations to salable horticultural crops.

You will learn:

- Propagation techniques including seeds, cuttings, budding and grafting.
- Sustainable practices in horticultural crop production and marketing.
- Planning, resource allocation and development of a nursery growing operation

Recommended pre-requisites: PLS240, SWES200
