FALL 2015 SCHEDULE OF CLASSES

**ESOC 214**

# Introduction to Data Science

Tuesday & Thursday, 9:30-10:45 am

As data continue to penetrate everything we do in contemporary work across many professions, employers are seeking data savvy people to extract meanings and patterns from data. This course provides students an introduction to the various platforms, skills, and considerations used in data mining and statistics. Particular attention will be given to toolkits embedded in R.

Now open for Fall 2015 registration.
