

## Urban Produce Job Opportunity

### Position Title: CEA Grower

### Company Description:

Urban Produce is a forward thinking Controlled Environment Agriculture (CEA) growing company whose mission is to bring locally grown, organic, fresh produce to urban cities worldwide. The Urban Produce CEA Growing System has been developed as a sustainable alternative to traditional agriculture, utilizing advanced hydroponic technologies in a controlled environment. Our mission is to build Vertical Farms worldwide, bringing fresh produce back to the cities where consumers can buy and eat locally grown produce, all while creating jobs in the community and simultaneously reducing our carbon footprint. As Urban Produce grows we will be expanding and building new growing units across the United States. This position offers the opportunity to oversee new Vertical Growing Units in North America.

### Job Description of Grower:

Oversee production of various organic leafy greens and herbs grown in our vertical growing units. Ensures all produce grown adheres with all USDA & NOP (National Organic Program) standards. Directs and coordinates all seeding and germination schedules to ensure product is ready on designated delivery date. Ensure product quality throughout the growing process and especially during processing and packaging. Participate in new product development.

### Job Requirements:

- At least 3 years of experience with Hydroponic Growing or Vertical Farming. Organic growing experience is highly valued.
- Skills: Self- Motivated, Hard Working, Enthusiastic, Pays Attention to Detail, Compiling Data, Good Communication Skills, Follows Instructions, Organized, Goal Oriented, Basic Lab Skills
- Computer Skills: Word, PowerPoint, Excel
- Preferred:
  - Fluent in Spanish
  - Previous experience with organic production
