

Microbiology Club

Meeting: Tuesday November 10th, 4:00 pm

VetSci/Micro Building, Room 205

Interested in learning about the fascinating world of microbiology and about research opportunities? Come & join the Micro club! In our next meeting we'll be learning about how the glowing *Vibrio* bacteria communicate by quorum sensing! We'll even write out our names with these glowing bacteria on plates, which you'll be able to take home! Also, snacks will be provided!

Visit our website to be added to the club listserv at microua.weebly.com
