

IMAGINE A SUMMER OF SCIENTIFIC DISCOVERY!

SUMMER INTERNSHIPS

IN PLANT GENOME RESEARCH

The Boyce Thompson Institute, located at Cornell University, is now accepting applications for internships in Plant Genome Research and Bioinformatics. Do not miss this opportunity to be a part of the next big breakthrough.

Now in its 15th year, the Plant Genome Research Program Summer Internship offers an incredible opportunity to work side-by-side with experts in the fields of Biology/Biochemistry, Biotechnology, Genetics and Development, Plant Sciences, Genomics, and Bioinformatics.

Over 80% of our intern alumni enter graduate programs in STEM fields. Apply now to gain invaluable confidence and hone your skills in the lab, while learning from an international community of scientists, who are passionate about protecting the environment, enhancing human health, and improving agriculture around the world.

THE DETAILS

APPLY BY FEB. 5, 2016
BTI.CORNELL.EDU/INTERNSHIPS

PROGRAM DATES
UNDERGRADS 6.6.16 - 8.12.16
HIGH SCHOOL 6.29.16 - 8.12.16

SUPPORT:
Selected undergraduate applicants will receive housing, travel, meals, and up to a \$5,250 stipend over 10 weeks. High school students will receive a \$2,400 stipend over six weeks.

ELIGIBILITY:
U.S. Citizens or permanent U.S. residents only | Undergraduate applicants must be enrolled in a college/university and at least 18 years of age, at the time of the internship | High school interns are funded by local supporters, and therefore the high school program is limited to local applicants only (within a daily commute of BTI), and are not eligible for housing, travel, or meal allowances.
