

NEW FOR FALL 2016

Issues in Covering Science and the Environment
JOUR 465/565

Field trips to the UA Tree-Ring Lab, UA Mirror Lab and more
OPEN TO STUDENTS IN ANY MAJOR

PHOTO BY CECIL R. SCHWALBE

- Discuss hot-button issues with scientists, environmental reporters and science journalists.
- Study with Professor Carol Schwalbe, a former National Geographic editor, and Dr. Cecil Schwalbe (aka The Snakeman), ecologist emeritus with the U.S. Geological Survey.
- Listen to podcasts, watch documentaries and read investigative stories about food waste, climate change, water woes, pollution, wildfires, nuclear secrets, trophy hunting, endangered species, dust storms, disease and more.
- Optional pilot project: We'll deploy air, water and soil sensors around Tucson and produce stories (text, video, photo) based on the data.

No prerequisites

3 credits

Monday/Wednesday 3–4:15 p.m.
