

Are you interested in fostering engagement and diversity in the environmental sciences?

ARIZONA-SONORA
**DESERT
MUSEUM**

**If so, apply to the
Bio/Diversity Internship Program**

Get hands-on experience working in science education and outreach in local schools
AND work directly with staff from the National Park Service and the
Arizona-Sonora Desert Museum!

High achieving UA students will have the opportunity to gain additional work experience via the Next Generation Ranger Program as summer or school-year PAID interns.

- ◇ 3 credit course
- ◇ Available through the Soil, Water and Environmental Science Department, the Department of Teaching, Learning & Sociocultural Studies, the Gender and Women's Studies Department, and the UA Honors College
- ◇ 10 hour per week time commitment — interns will spend 5 hours per week in a local, K-12 school and an additional 5 hours per week attending trainings and developing program materials at the University of Arizona

**All application materials should be submitted no later than
December 1st, 2016**

- ◇ Find the application form at <http://wise.arizona.edu/Bio-Diversity-Project-Intern>
- ◇ Email your resume directly to Nancy Freitas at nancylf@email.arizona.edu

We look forward to hearing from you!
