Notice: Tagawa Greenhouses, Southwest has an available Grower position. We are a 20 acre bedding plant facility located in Estancia, NM.

Description: We are currently looking for a motivated individual to join our team as a Grower. The position is mainly focused on achieving and maintaining high quality crop within an assigned zone. Tasks include, but are not limited to: monitoring and adjusting the greenhouse environment, nutrition/moisture management and application, use of IPM tactics to maintain crop cleanliness (monitor disease/insect damage and application of a BCA or pesticide applications, sanitation), as well as monitoring pH and EC.

The Grower is responsible for the crop success and the continued quality of assigned crops, and must be consistent in their effort to ensure both success and quality. Supervisory experience is preferred but not recommended, as the applicant will be periodically in charge of supervising and/or training of production staff. Qualified applicants must be able to work with the Head Grower to recognize and remediate issues. In addition to the preceding tasks, any tasks or roles deemed necessary to the continued success of the program will be expected of a dedicated grower.

Skills and abilities: Temperature/moisture management · general plant nutrition skills · general plant disease and insect ID · knowledge of pH and EC effects on plant growth and flower development · time management while multitasking · self motivation · attention to detail · A Grower will be expected to work some (and likely most) weekends.

Qualifications: Bachelors Degree in a horticultural or plant sciences field, preferably with experience in a commercial greenhouse. An alternative to a degree would be 5+ years experience as a grower at a large (5+ acres) production facility. An Associate's Degree would be acceptable for the right applicant.

Compensation: Competitive salary dependant on experience and qualifications; medical and dental insurance; paid vacation; 401(k)
