

PLS 303

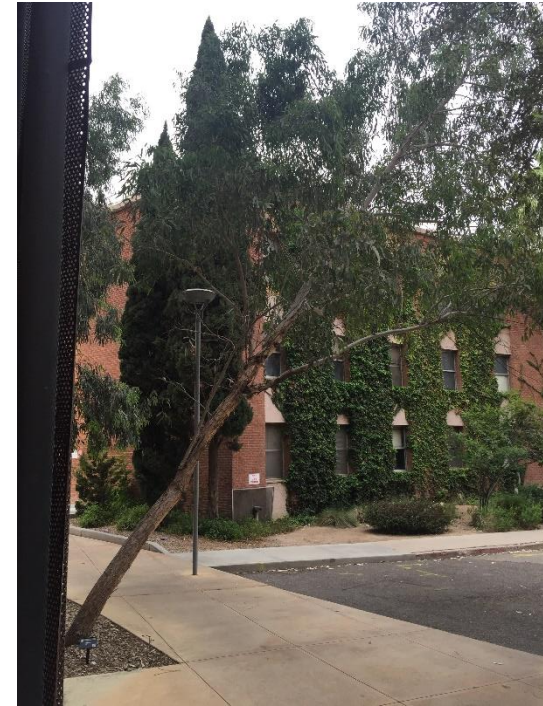

Arboriculture

Dr. Ursula Schuch

Spring 2020

2 credits, first 7 weeks of
the semester

Lecture: M, W 8:30-9:50am,
F online

Learn about tree cultivation and tree care management of landscape trees in urban environments. Study tree care concepts based on tree biology and environmental science. Apply arboriculture principles to urban forestry, landscape planning, design and installation, and landscape management.

Prerequisites: PLS 240, ECOL 182R or instructor consent
