

GRASSLANDS-CLIMATE WORKSHOP

Western Climate Adaptation Science Centers and the US Fish and Wildlife Service will be holding an in-person Grasslands-Climate Workshop on January 24th and 25th at the USFWS Region 6 Headquarters in Lakewood, CO.

This Climate Workshop follows four recorded web-based training modules that can be viewed here. Topics include: **Introduction and Use of a Climate Toolkit, Vulnerability Assessments for Key Grassland Species, An Adaptation Workbook for Grasslands, Peer to Peer Networking, Carbon Markets and Sequestration, and Landscape Frameworks to Guide Climate Decision Making.**
