Oregon State University, Department of Animal and Rangeland Sciences**

The Department of Animal and Rangeland Sciences at Oregon State University in Corvallis invites applications for a full-time (1.0 FTE), 9-month tenure-track Assistant Professor Position. It is expected that this appointment, with focus on Forage/Livestock, Teaching, and Research, will find support for and mentor graduate students as part of both research and teaching components.

Salary for an additional two months will be provided in at least the first two years of employment as part of the start-up package. Subsequently, the faculty member will be expected to obtain funds for summer salary through grants, contracts, fees or other sources.

This position will focus on grazing-based, sustainable ruminant production systems. It is intended to address important needs of society (such as food security, health, food quality and safety, environmental health) and stakeholder-oriented research that meets the needs of farmers, and ranchers in Oregon.

Oregon State University is the state's Land Grant University and is one of only two universities in the U.S. to have Sea Grant, Space Grant and Sun Grant designations. Oregon State is also the only university in Oregon to hold both the Carnegie Foundation's top designation for research institutions and its prestigious Community Engagement classification.

Oregon State University is located in one of the safest, smartest, greenest small cities in the nation. Situated 90 miles south of Portland and an hour from the Cascades or the Pacific Coast, Corvallis is the perfect home base for exploring Oregon's natural wonders.

Qualifications: PhD in Animal Science, Range Science, Agronomy, Crop Science, or closely related field with demonstrated experience in grazing-based systems; Demonstrated teaching, basic and applied research and organizational skills; Demonstrated written and oral communication skills including the effective use of mass media; Demonstrated ability to work as a team member with other professionals and volunteers; Demonstrated ability to lead groups and to plan, organize, evaluate, manage, and delegate details associated with program and office management; General knowledge of computers, including proficiency in word processing and other data management programs; Ability to work independently with minimal supervision and evidence of good time management skills; An understanding of and commitment to the basic philosophy of the Land Grant University system; and Ability to secure external funding support for educational and research programs. This position requires driving a University vehicle or a personal vehicle on behalf of the University; Travel is necessary to perform some of the position duties. Experience in forage and livestock production or research; Demonstrated ability to secure external funding support for educational and research programs; and Demonstrated commitment to promote and enhance diversity.

Salary is commensurate with education and experience. Benefit package includes several options for health/dental/life insurance, retirement and tuition fee reduction.
