- Sonoita Creek Wildlife Corridor – private land just north of Patagonia. This property was planned for residential development (almost 200 houses), but that didn't happen and a conservation group acquired the land. It's mesquite-grassland mostly, and serves as a wildlife movement corridor between several mountain ranges, including the Santa Rita Mountains. It has a neat canyon with large oak trees in the middle of the property. There are also some new hiking trails with wildlife viewing spots.

Dear SNRE Grads and Undergrads –

We will have the pleasure of hosting a delegation (5-6 people) from the US Fish and Wildlife Service (region 2) on March 15th.

They will be visiting a bunch of classes to talk about career opportunities and we have arranged a lunch with the delegation open to all of our students.

If you are even remotely considering working for them, this would be a wonderful opportunity to learn more about the service and make some contacts.

It will run from 11:30 – 1:30 in N450 so please feel free to come in anytime during that 2 hour period (of course there will be great food).

Let me know if you have any questions.

**Best Regards,
Stuart**
