This means that all Agency employees may be asked or assigned to participate in rotating temporary duty assignments to support emergency programs at some time during their careers with APHIS. It is difficult to predict the frequency with which such emergency situations may occur – and could range from several emergencies in a year to none over the course of many years. In the event that you are called upon to support an emergency program, this may require irregular working hours, including overtime, and may include duties other than those specified in your official position description. While some emergency program support assignments may be able to be performed at the employee's current duty station, in other cases employees may be asked to go on-site to a temporary duty state location. In addition, it may be necessary for employees to participate in multiple rotations to an emergency program assignment. Attempts will be made to keep disruption to the employee to a minimum.
