

WE ARE HIRING SENIOR RANGE ECOLOGIST

Become a nationally-recognized rangeland manager, working on industrial-scale energy projects, world-class conservation, and management initiatives as a member of a collaborative, cutting-edge team.

EXPERIENCE

6-10 years as a rangeland ecologist/manager
Licensed or Certified Range Manager a plus

KNOWLEDGE

Must know California botany, statistical
knowledge, and fluency in GIS for data mapping

EDUCATION

Bachelors, Masters, or PhD in
Range Science or related field

JOB OVERVIEW

- Work with government agencies, corporations, private landowners, ranch managers, and non-profits to develop vegetation and grazing management plans.
- Develop land management plans including multi-species managed livestock grazing, wildlife management, crop rotation, threatened/endangered species management, and invasive species control.
- Create grazing plans for industrial-scale solar energy farms to protect endangered species and provide fire fuel management.
- Generate long-term monitoring plans, rangeland baseline condition reports, pasture management plans, and livestock grazing leases.
