

Grassland Resilience Workshop Series: Brush Management & Soil Health

This free workshop series will bring together land managers, ranchers, and researchers to learn about the standard management practices in three adjacent watersheds to improve soil health and manage mesquite encroachment. Sessions include a kick-off virtual webinar, and three in-person field visits and workshops. Workshops will feature local experts on the ecological features of the landscape, treatment planning and implementation, and effects of management on soil health, vegetation, and habitat quality. Register for the Virtual Kick-Off Webinar now, save the field trip dates - registration is limited!

Tuesday, October 10th: Virtual Kick-Off Webinar

- 10am, Register for this virtual event here:
<https://tinyurl.com/workshopkickoff>

Friday, October 20th: Santa Rita Experimental Range

- 9am - 5pm

Friday, November 3rd: Altar Valley

- 9am - 5pm

December TBD: Las Cienegas National Conservation Area

- 9am - 5pm

This workshop series is convened by the Conservation and Adaptation Resources Toolbox (CART), the Gornish Lab, the Santa Rita Experimental Range, the Altar Valley Conservation Alliance, the Las Cienegas Watershed Partnership, the USDA Agricultural Research Service, and the Pima Natural Resources Conservation District.
